

COCOGEVITY™

WITH AÇAÍ, MANGOSTEEN & WOLFBERRY

AVAILABLE NOW!

Youngevity® introduces its latest Majestic supplement, antioxidant-boosting CocoGeivity™, comprised of the powerful hybrid of Açai, Mangosteen and Wolfberry. CocoGeivity's™ ingredients are bioavailable and highly sought after for their nutritious, health-promoting benefits.

CocoGeivity™ boasts an indulgent ingredient ("the food of the Gods") that increases its naturally *Cocolicious* flavor ...Chocolate! Cocogen Extract is a natural extract of the cocoa bean, which grows on the branches and trunk of the Theobroma cacao tree. Chocolate has gained its reputation for having significant amounts of naturally occurring flavonoids, with an antioxidant count twice as high as red wine and three times higher than green tea. Not surprisingly, for 90% of its history, Chocolate has been consumed in liquid form. Laboratory and human studies have indicated that cocoa flavonoids can support heart health!

Açaí, the fruit of a palm tree ("The Tree of Life") that grows in the rainforests of the Amazon, is known to have ten times more antioxidants than red grapes and 10 to 30 times the anthocyanins (polyphenols that give fruits and vegetables their deep color and are high in antioxidant value) of red wine.

Promoting cardiovascular and digestive health, Açai provides a healthful synergy of:

- **monounsaturated (good) fats**
- **dietary fiber (one-third of the Açai fruit's mass)**
- **phytosterols (β -sitosterol competes with dietary cholesterol for absorption which may reduce blood cholesterol levels, Lubrano 1994; Schauss 2006a) .**

Possibly named after Queen Victoria's infamous desire to have this exotic fruit imported as her personal staple, the Mangosteen, no relation of the Mango fruit, is the "Queen of Fruits". The fruit of the Mangosteen is recognized for the incredibly potent antioxidant power of its phytonutrient Xanthones. Some of these Xanthones include mangostin, alpha- and beta-mangostins, mangostinone, mangostanol, and the flavonoid epicatechin.

Wolfberry, crowned the "Red Diamond" in ancient Chinese medical books, provides diverse phytochemicals, including:

- **8 Polysaccharides**
- **4 Carotenoids (antioxidants)**
- **6 Vitamins**
- **18 Amino Acids**
- **11 Essential Minerals**
- **5 Omega Fatty Acids**

"So noble a confection, more than nectar and ambrosia, the true food of the gods."

- Dr. Bachot, 1662

In the Chinese work "Herbs and Nutrition" by Shi Liao Ben Cao, it is said that Wolfberry "strengthens the muscles and tendons, prevents of colds and leads to longevity."

With an ORAC score of 85,000 per liter, CocoGeivity™ links decadent taste with antioxidants for optimal health. ORAC (Oxygen Radical Absorbance Capacity) is a method of measuring antioxidant capacities of different foods. The ORAC analysis, which utilizes Fluorescein as the fluorescent probe, provides a measure of the scavenging capacity of antioxidants against the peroxyl radical.

Get chocolate-enriched with CocoGeivity™, a liquid food supplement containing a proprietary blend of the world's most exotic ingredients and luscious fruits, because a healthful life without the sweet indulgence of CocoGeivity™ is no life worth pursuing!
